

CHRISTOS-EMMANOUIL LOUKAS

Born in 1998 , E-mail: manolisxloukas@dr.com

Objective

Committed to designing, upgrading, testing, implementing and producing high quality systems, methods , products, devices and highly sophisticated websites that go above and beyond expectations.

Education

- Currently studying at the Faculty of Electrical and Computer Engineering of the National Technical University of Athens, since October 2016.
(<https://www.ece.ntua.gr/>)
- Graduated on May 30th of 2019 from Saint Thalelaeus University of Osteopathic Medicine, Doctor of Osteopathic Medicine Program.
(<http://stuom.unaux.com/>)
- Graduated on August 19th of 2019 from Center of Excellence, Neuropsychology Diploma Course.
(<https://www.centreofexcellence.com/>)
- Graduated on May 28th of 2019 from Center of Excellence, Naturopathy Diploma Course.
(<https://www.centreofexcellence.com/>)
- Graduated on April 30th of 2019 from Center of Excellence, Biochemistry Course.
(<https://www.centreofexcellence.com/>)
- Graduated on January 20th of 2019 from COURSEGATE, Microbiology Diploma Course.
(<https://coursegate.co.uk/>)
- Graduated on January 12th of 2019 from ELEARN COLLEGE, Kinesiology Diploma Course.
(<https://elearncollege.com/>)
- Graduated on January 16th of 2019 from ELEARN COLLEGE, Anatomy and Physiology Diploma Course.
(<https://elearncollege.com/>)
- Graduated on January 31st of 2019 from GLOBAL EDULINK, Human Biology Diploma Course.
(<https://www.globaledulink.co.uk/>)
- Graduated on August 3rd of 2018 from Royal College of Surgeons, EINTEGRITY Surgery Program .
(<https://www.eintegrity.org/e-learning-healthcare-course/surgery.html>)
- Since 2015 I have completed over 50 certificate courses primarily in the fields of electrical and electronics design and engineering, computer aided design, programming , website development and implementation, network engineering and security, data science, artificial intelligence, machine learning, database design and engineering, chemical and radio-nuclear engineering, applied psychology, influence psychology, marketing and management.

Skills & Abilities

MANAGEMENT AND LEADERSHIP

- Having participated as designated team leader at a wide range of successful projects ,over the past 5 years ,that require both the efficient cooperation of a team of specialists as well as the careful planning , usage and implementation of various resources has shaped and gradually honed my management and leadership skills.

SALES

- Having studied the fields of influence psychology and marketing extensively over the past 3 years enables me to promote any product in the most efficient way possible.

COMMUNICATION

- Being an avid proponent of team work and cooperation has led me to research and study the art of successful and efficient communication thus solidifying my communication and negotiation skills.

TECHNICAL AND ENGINEERING SKILLS

- Having dedicated over 6 years to studying various scientific and technical disciplines as well as practicing and testing my knowledge has endowed me with a rather wide skill-set that includes:
 - Great knowledge of various programming languages such as C#,C++,Javascript,Python,Ruby,R+,HTML5,CSS
 - Website development with emphasis on backend development and engineering.
 - Data management and analysis.
 - Database design and implementation.
 - Network engineering and security.
 - Artificial intelligence programs design and implementation.
 - Electronic circuits design and engineering.
 - PCB design using computer aided design software suites.

CONSULTING SKILLS

- My extensive study of the realms of medical science and psychology has enabled me to offer professional consultations regarding a wide range of matters, occurrences and situations.

CRISIS MANAGEMENT SKILLS

- Major projects often involve unfortunate occurrences , unforeseen impediments and the emergence of result threatening crises. My experience in technical and research projects over the past 5 years has trained me in the efficient resolution of any possible crises that may occur and has also enhanced my planning skills in order to predict and avoid any possible impediment.

Experience

- 6+ Years of experience in programming and software engineering.
- 3+ Years of experience in website development and web-applications design.
- 4+ Years of experience in electronics design and engineering.
- Since 2018 I have participated in various large scale web-based projects.
- Last position and project: Lead software engineer and programmer for the Saint Thalelaeus University new website and automated infrastructure.

Started: October 10th 2019

Completed: December 22nd 2019

The result of the project can be reviewed at the following link: <http://stuom.unaux.com/>
